## NURSING NOTES

of change is going the other way  
of nursing is certainly going  
shape because there continues to be  
changes in a variety of areas  
first since the faculty  
announcements  
congratulations to  
a bell he completed his  
doctorate at the University of  
Delaware as a research  
assistant professor in research  
involve the evaluation of current  
activities standards  
progression of first degree students  
in our graduate program  
he retired in January  
after 25 years in the faculty at SU  
and is retiring in July after  
years of teaching at SU through  
these dedicate faculty  
members contribute to  
the excellence of  
higher nursing  
education in  
an enable both  
undergraduate and  
graduate students to  
achieve  
practitioners in  
nursing joining the  
faculty this fall is a  
graduate of our bachelor's  
program in health care  
- he is also a doctoral  
candidate at University of  
Maryland School of Nursing. She  
brings many years of expertise in  
child and adolescent psychiatric  
nursing. Catherine Green  
- is a full time  
tenure track faculty position is also  
pursuing doctoral study at the  
University of Maryland School of  
Nursing and brings a strong
