

- Rationale: Projects are planned well in advanced and results are not guaranteed. Student should not be penalized for poor results.
- D. Price recommended approval. It was seconded by C. Bradley.
- Vote: Unanimous

IV. Grad School Update D. DeWitt

Expectations of Grad Programs

- Should plan on growing.
- President wants 10K students by 2028 and 12% of them should be graduate.
- Currently a little over 10% and most of that was growth due to new programs/delivery models.
- Some new programs are being discussed.
- OGS will support graduate programs with or without a Graduate School.
- There has been a cost analysis done for all undergrad and grad programs.
- Will need feasibility studies on new ideas including certificates.

Graduate Assistants

- There has not been a stipend increase since 2013. GSC should consider a resolution.

Technical Writing Workshop

- OGS is working with Courtney Harned (UMES Faculty and Ed.D. graduate) to hold a technical writing workshop.
