## Reasonable Accommodation Verification Form for an Emotional Support Animal (ESA)

Student's Name: \_\_\_\_\_

Proposed Emotional Support Animal Name: \_\_\_\_\_

Type of animal: \_\_\_\_\_

Age of animal: \_\_\_\_\_

The above-named student has indicated that you are a health care provider who has suggested that having an Emotional Support Animal (ESA) in University housing will be helpful in alleviating one or more symptoms or effects of the student's disability. Generally, we accept documentation from providers in the State of Maryland or the student's home state who have personal knowledge of the student, consistent with their professional obligations. Letters purchased from the internet for a set price rarely provide the information necessary to support an ESA request.

The Federal Trade Commission (FTC) has been asked to investigate websites that purport to provide documentation from a health care provider in support of requests for an ESA. The websites in question offer for sale documentation that is not reliable for purposes of determining whether an individual has a disability or disability-related need for an ESA because the websites operators and health care professionals who consult with them lack the personal knowledge that is necessary to make such determinations.

So that we may better evaluate the request for this accommodation, please answer the following questions:

### Information About the Student's Disability

1. Federal law defines a person with a disability as someone who has a physical or mental impairment that substantially limits one or more major life activities. That suggests that a diagnosis (label) does not necessarily equate with a disability (substantial limitation). What is the nature of the student's mental health impairment (that is, how is the student substantially limited)?
2. Does the student require ongoing treatment?
3. How long have you been working with the student regarding their diagnosis?

### Information About the Proposed Assistance Animal

(Please note that there are some restrictions on the kind of animal that can be approved for the residence hall; it is possible the student may be approved for an ESA, based on the information you provide here, but not be allowed to bring the specific animal named.)

1. Is this an animal that you specifically prescribed as part of treatment for the student, or is it a pet that you believe will have a beneficial effect for the student while in residence on campus?

2. What symptoms will be reduced by having the Emotional Support Animal?

3.
