Good evening HCM Action Initiators,

This newsletter is designed to share information and provide assistance for Workday HCM processes, processing timelines, frequently asked questions, tidbits and other information. We are making progress in providing an additional way of sharing information using the SU Workday webpage. Please bookmark this page as a quick reference for HCM process questions.

---

We have a new presence on the SU Workday webpage in the subheading [HCM Training Resources](#) located on the left-hand menu. On this page you will find the Job Aid Supplements for Student Hire and Adjunct Contract Scenarios. Additionally, the page will include the HCM Update Newsletters from HR (to-date July 18 and July 29) and we hope to add some additional processing timelines and other helpful information soon.

Workday consultants have been holding virtual

for details. If you have not already attended, please consider attending as it has been a great learning experience for not only technical guidance but learning about other situations your colleagues are navigating.

Last week, MD Connect sent a Workday Training Now Live email which includes links to Job Aids/Videos, a

hours. For \_\_\_\_\_, the default is 20 hours however, if you know the actual work hours it would be best to enter it here as well as on the PAP.

Please note, if the transaction is effective \_\_\_\_\_ in which the transaction reaches the above HR PACS approval step date, there may be an additional delay in processing. During the payroll (Regular or Contractual) processing week, the Wednesday through the following Monday is a "no changes" period. Given HR and Payroll are sharing the same live data system, the "no changes" period is necessary for the payroll process to run without interruptions, which may cause payroll errors. In these cases, the transaction may be delayed by another entire payroll period cycle.
